Purpose:

- ▶ To foster a collaborative research network in Arizona advancing systems biology and its translation to personalized medicine.
- ▶ To advance the proteomics capabilities in the state through improved awareness of the most cutting-edge methodologies and their novel applications.

Who should attend? Researchers and clinicians interested in integrative research, wanting to interact with and learn from their colleagues. Invited speakers will address topics of: Protein Biomarkers – Discovery and Validation; Advances in Protein Analysis; Protein Networks, Pathways and Clinical Applications.

The symposium will also feature panel discussions with invited guests:

Dr. Leland Hartwell, Fred Hutchinson Cancer Research Center

Dr. Brian Balgley, Calibrant Biosystems, Inc

Dr. James Kerwin, House Ear Institute

Dr. Mandy Paulovich, Fred Hutchison Cancer Research Center

Dr. Tom Grogan, Ventana Medical Systems

Dr. Russ Finley, Wayne State University

Dr. Jeff Trent, Translational Genomics Research Institute

Dr. George Poste, The Biodesign Institute

Poster Session: Will highlight the latest integrated biosystems research activities in Arizona. Arizona researchers are invited to submit poster abstracts for consideration to Mark Hayes MHayes@asu.edu by October 19. Arizona graduate students and post docs are encouraged to register and participate.
